

A Connection You Can Count On

ANI's Call Completion Solution

ANI Networks Answers the Call Completion Challenge

We establish a direct SIP Interconnection between ANI Networks and its Customers, as well as the OCN holder so together we can eliminate inbound call completion issues, increase access compensation for our partners, and support their network transition to IP.

We're focused on call completion and we know that the key to success is connecting directly to the OCN holder. Our network of direct connections provides 99% call completion rates for our customers!

- o If you're an OCN holder, chances are good we have traffic on our network today destined for you! The process is simple, utilizing your IP switch—we aggregate all the traffic destined for your OCN and send it directly from an IP address on our switch to an IP address on your switch!

Voice telephony is rapidly transitioning to IP. We're here to support you in this fast changing environment by providing solutions that give you a competitive edge, profitable results and satisfied customers!

- o We're experienced in interconnecting with all makes and models of IP switches
- o We've created solutions to help our partners transition from a traditional TDM platform to IP quickly and economically. No need to get left behind!

We collaborate with the OCN holder to deliver new revenue streams & enhance access compensation.

- o We analyze current traffic data to develop market-making rates
- o We compensate OCN holders for 100% of the traffic we send every 30 days, eliminating CABS collection risk and accelerate cash flow
- o We help wireless providers generate a new revenue stream
- o We understand the NECA tariff structure and help carriers maintain and enhance their access compensation
- o Once interconnected, we market our new relationship with the OCN holder in our wholesale Direct Termination Service offering to increase inbound traffic volume & revenue

A Connection You Can Count On

Established in 1989, ANI Networks is committed to providing world class service to over 400 CLEC, ILEC, Cable Providers, Hosted VoIP, Wireless and Switchless Reseller companies. As our industry continues to evolve, ANI Networks' strategic direction is simply to deliver unsurpassed quality for our wholesale customers and their subscribers. Our Direct Peering relationships in North America allow ANI to provide our customers a 99% call completion ratio—this is among the highest in the industry! We provide flexibility, reliability, and a 'best in class' customer support team backed by ANI's patented web portal. ANI's business plan is built on ensuring our customer's sustainability in the marketplace, for today and for the future.
